Offers ultimate convenience with individual daily packs.

**IsaGenesis Product B** –The crucial DNA information within our cells is protected by telomeres.

Telomeres protect our DNA, much like plastic caps protect the ends of shoelaces from unraveling.

As we age, our telomeres naturally begin to shorten. Factors such as oxidative stress, an unhealthy diet, and poor lifestyle choices can accelerate this telomere shortening, resulting in rapid aging and the earlier onset of age-related health problems.

IsaGenesis® is a powerful blend of complex vitamins and botanicals uniquely designed to offer telomere and antioxidant support to promote slower, more youthful aging.

Assists with youthful cell function and supports telomeres

Helps neutralize harmful free radicals that can accelerate the aging process

Helps maintain efficiency of natural enzymes, increasing antioxidant support

**IsaDelight** –Individually packaged chocolate with green tea extract, amino acids, and antioxidants to help satisfy cravings.

Delectable chocolate with only 60 calories per chocolate square
